Tools & Others	Git, VS Code, Postman, Vercel, Netlify, Firebase, Prisma

WORK EXPERIENCE

Nebs-It Solution LTD

Jul 2025 – Present
Dhaka, Bangladesh

Full-Stack Developer

- Developed and maintained the company's ERP system with modules for inventory, sales, purchase, HR and reporting using React.js, Node.js, Express.js and MySQL.
- Built and integrated REST APIs and third-party services (e.g., payment gateways, email services).
- Worked on multiple client projects including e-commerce websites, dashboards and internal tools.
- Collaborated with the design and backend teams to deliver responsive and user-friendly interfaces.
- Participated in code reviews, debugging and deployment using Git and Vercel.

PROJECTS

Nebs-IT ERP System

React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Prisma

- Developed a complete ERP system for managing inventory, sales, purchase, HR and reporting.
- Implemented role-based access, dashboards and real-time data visualization.
- Integrated payment gateway and automated email notifications.

Multi-Branch E-commerce Platform

Next.js, Node.js, Express.js, MongoDB

- Built an e-commerce platform for a single business with multiple branches and separate inventories.
- Developed branch-based inventory, product, order, and customer management features.
- Integrated a POS system for managing in-store sales and transactions across branches
- Developed REST APIs and optimized the application for performance and scalability.

Animated Portfolio (GSAP + Framer Motion)

React.js, GSAP, Tailwind CSS

- Developed a personal portfolio website with smooth scroll and interactive animations.
- Implemented modern UI/UX design with GSAP for engaging user experience.
- Ensured responsive design across all devices.
